Re: Field Review Of The Building By A Professional Engineer During The Course Of Demolition

The owner hereby warrants that:

1. A Professional Engineer as required by Div. C 1.2.2.3. of the Ontario Building Code has determined the building structural design characteristics and the method of demolition.
2. The building, during demolition, will be under the field review of a Professional Engineer in accordance with Div. C 1.2.2.3. of the Ontario Building Code.
3. If the Professional Engineer named herein ceases to provide the field review, another Professional Engineer will be retained immediately so that field review will continue uninterrupted and the Chief Building Official will be notified accordingly.
4. Written reports arising out of the general review shall be forwarded immediately to the Chief Building Official by the Professional Engineer in accordance with Div. C 1.2.2.3. of the Ontario Building Code.

Not limiting the generality of the foregoing, the FIELD REVIEW of the demolition of the building will be undertaken by:

Name of Professional, Phone # (Please Print):

Signature of Professional:
